## Summary

Software Engineering graduate from Prince Sattam bin Abdulaziz University with a GPA of 4.58/5.00 (Excellent). Passionate about Artificial Intelligence, Software Development, and UI/UX Design, with experience developing award-winning AI solutions, including a smart cane for visually impaired individuals using Computer Vision, Machine Learning, and RaspberryPi. Skilled in web and mobile application development, software testing, and data visualization. Proficient in Python, Java, JavaScript, PHP, MySQL, Power BI, IBM Cognos, and Figma .Eager to contribute to innovative, user-centered software solutions through strong technical and analytical skills.

## Education

Bachelor of Software Engineering **Prince Sattam bin Abdulaziz University |** 2022 – 2026, GPA: 4.58/5.00 (Excellent)AlKharj, Saudi Arabia

## Experience

- **IBM Maximo Consultant Intern – eSolutionsMEA (Jun–Aug 2025):** Developed BIRT reports, Designed UI prototypes using Figma to improve user experience, and collaborated with cross-functional teams to deliver requirements.
- **Oracle Student Ambassador** – PSAU
- **Student Club Member:** Innovation & Entrepreneurship, AI, Data Science, Engineering – PSAU, Tuwaiq Club
- **Student Employment Member** – PSAU

## Certificates

- Certificate of completion of field training - eSolutionsMEA
- Maximo Application Suite (MAS) Manage Introduction - IBM
- Arduino Bootcamp (Certificate of Attendance) - IEC Club
- UX Research, Wireframing, and Prototyping (Low & High Fidelity) using Figma – Coursera

## Awards

- **1st Place** | PIXEL PERFECTION 2025
- **2nd Place** | College Scientific Forum - Innovation & Invention Track 2025
- **3rd Place** | CODE-IN 2024

## Projects

1. **Basira (Graduation Project, 2nd Place – College Scientific Forum):** Developed an AI-powered smart cane for visually impaired individuals using Computer Vision and Machine Learning to enhance accessibility and independent navigation. Contributed to the development of a real-time OCR system by transitioning text recognition from static images to live camera streams and improving image preprocessing for more accurate text extraction. Participated in building and refining the obstacle detection dataset, validating annotations, and training YOLO models to improve obstacle recognition performance. Deployed and integrated AI models on embedded hardware, enabling standalone real-time operation of the obstacle detection system. The solution also incorporated audio feedback and mobile application integration to provide users with real-time environmental awareness and assistance.
2. **DeepTrust – AI-Powered Deepfake Audio Detection (Team Project | AMAD FinTech Hackathon):** Contributed to the development of an AI-powered web application for deepfake audio detection by integrating a trained AI model with the FastAPI backend, developing RESTful APIs for audio upload, prediction, and result retrieval, and implementing PostgreSQL database integration to manage analysis results and audio metadata. Collaborated with a five-member team using Git and GitHub throughout the AMAD FinTech Hackathon. **GitHub Repository:** **DeepTrust-audio-detection**
3. **Cake Shop Website & Mobile App (1st Place, University Competition):** Built a responsive website (HTML, CSS, JS) and mobile app (Android Studio, Java, XML) with multi-screen navigation and interactive features.
4. **UI/UX Design Projects:** Designed and prototyped mobile apps in Figma, including user flows, wireframes, and high-fidelity UI (Projects: Nutrifi, IBM Maximo).
5. **Software QA Project – PSAU:** Conducted testing of osTicket using Katalon Studio, created test plans (IEEE 829), managed test cases in TestRail, and tracked defects in Jira.

## Technical Proficiencies

Python, Java, PHP | HTML, CSS, JavaScript | FastAPI, REST APIs | Power BI, IBM Cognos | Jira, Katalon Studio, JMeter, SonarQube, TestRail | PostgreSQL, MySQL | Docker , Swagger / OpenAPI | Android Studio, Eclipse, BIRT | Figma

## Soft Skills

Leadership | Analytical Thinking | Communication | Teamwork & Collaboration | Problem Solving | Time Management

## Languages

**English -** Fluent **Arabic -** Native
